

SERVICE BILLS

On all future bills please pay the amount as given on your bill. We are unable to make adjustments on bills until we receive the correct meter reading on time for billing. We must consider your account delinquent if the amount billed does not correspond to the amount of your payment. Please do not send stamps in payment of your account. When remitting by mail please enclose the small stub - not the large one. This large stub contains all of the necessary information for those who wish to keep a record of their monthly consumption, and the small stub is all we need for our records.

GROUP GATHERINGS

On Friday evening of last week your cooperative employees, directors, and their families enjoyed a pot luck supper in the basement of the Camp Point Community Building. Fried chicken and homemade ice-cream were the two main features of the meal. There were 53 present. Later in the evening the group enjoyed seeing several rolls of film--one of which was taken on our project.

Mr. & Mrs. W. D. Scoggan and son, Dale, were our most pleasant hosts at a weiner roast held at their farm home near Timewell, Illinois, Tuesday evening, September 14. Those who attended were the cooperative office employees, linemen and their families. A very enjoyable time was spent around the fire and afterward the group joined around the piano and sang a number of good old-fashioned songs.

SOMETHING NEW

Next month's meter reading card will come to you in double post-card form, instead of being attached to a newsletter, as it is this month. The Illinois REA News bulletin is now being sent to all members instead of the bulletin which used to be prepared in this office.

FINANCIAL REPORT

Total billing	\$6,361.77
Average Bill	\$4.36
Average KWH Used	69
Total KWH Sold	101,195
Total Members Billed	1458
